Homework Assignment: Organ, Tissue and Eye Donation

Student Name _____ **Date** _____

Now that you've had a chance to learn about registering as a donor, write down what surprised you most about organ, tissue and eye donation:

Homework Assignment – Share Your Decision

Please discuss organ, tissue and eye donation with your family tonight. Share what you learned from the presentation and inform them of your decision.

Questions to ask:

- Are you a registered donor? Why or why not?
- Do you know anyone who became an organ, tissue or eye donor?
- Do you know someone who is an organ transplant recipient or tissue recipient?

Dear Parent or Guardian:

Your child learned about organ, tissue and eye donation and transplantation in class today. Every person applying for a driver's license or identification card in Iowa has the opportunity to choose whether or not they would like to register as a donor.

The goals of this lesson were:

- To educate students about organ, tissue and eye donation and how transplants can save lives.
- To provide students with basic information for making an informed decision as to whether they want to register to be a donor.
- To encourage students to discuss this important topic with their parent or guardian.

Please take some time as a family to discuss this issue and review any information your child brings home. Listed above are some of the things they learned about donation. Even though it may feel uncomfortable, a family discussion about organ, tissue and eye donation now could someday make a decision about donation easier for your family. Many families faced with this decision have shared it was a relief to know their loved one's feelings about donation.
